The Literary Map of Africa is a bio-bibliographical database, designed to be a comprehensive research and information tool on African literature. Users are offered a range of information for each writer: biographical data, a list of primary works, and where applicable, selected reference and critical works, dissertations, interviews, pertinent web sites and prizes won. Sources listed may be in print, electronic, or multimedia formats.

JSTOR is a digital library of academic journals, books, primary sources, and research reports. The database contains resources from the arts, humanities, social sciences, sciences, and other academic fields. JSTOR’s primary source collections include “Struggles for Freedom: Southern Africa” and “World Heritage Sites: Africa.”

Africa Bibliography is an authoritative guide to works in African studies published under the auspices of the International African Institute annually since 1984. This online-consolidated version brings together every record collected since the bibliography's foundation, producing a rich and interactive resource for all scholars interested in the study of Africa.
